Overview

STRATEGY SESSION

Where we break down all your needs.

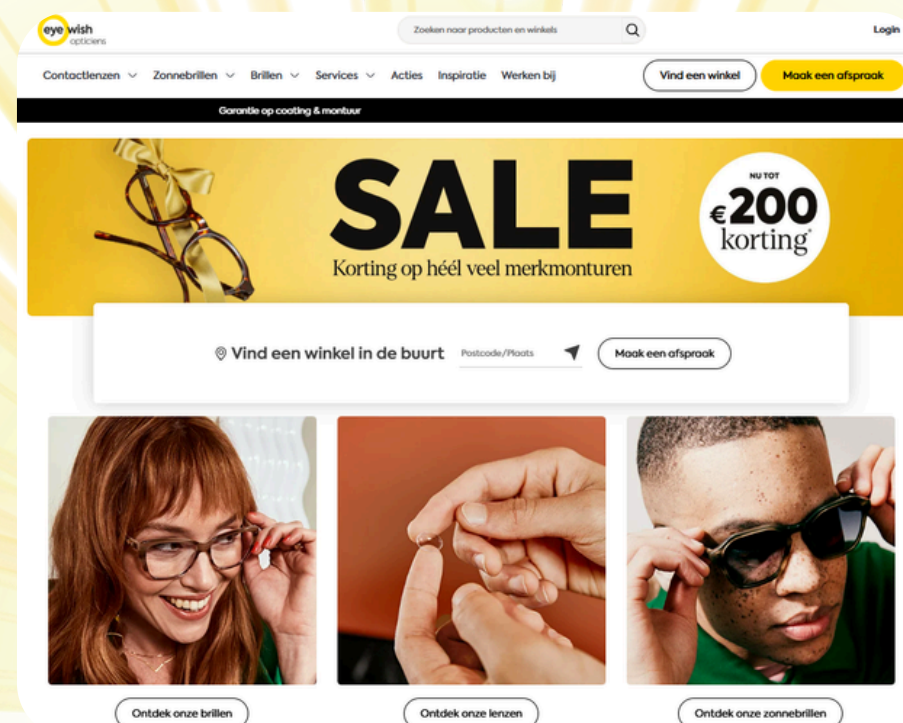

In our initial strategy session, we take the time to understand your business goals, target audience, and challenges. This session ensures we create an ad management plan that's specifically to your brand, rather than using a one size fits all approach.

COMPETITOR ANALYSIS

Find out what works today and maximize the chance of running a profitable and scalable campaign.

I conduct research on your competitors' strategies to identify what's working in your industry. This allows us to reverse-engineer winning ad structures and apply proven tactics, while also finding creative gaps to position your brand as the standout choice.

META PIXEL CONNECTION

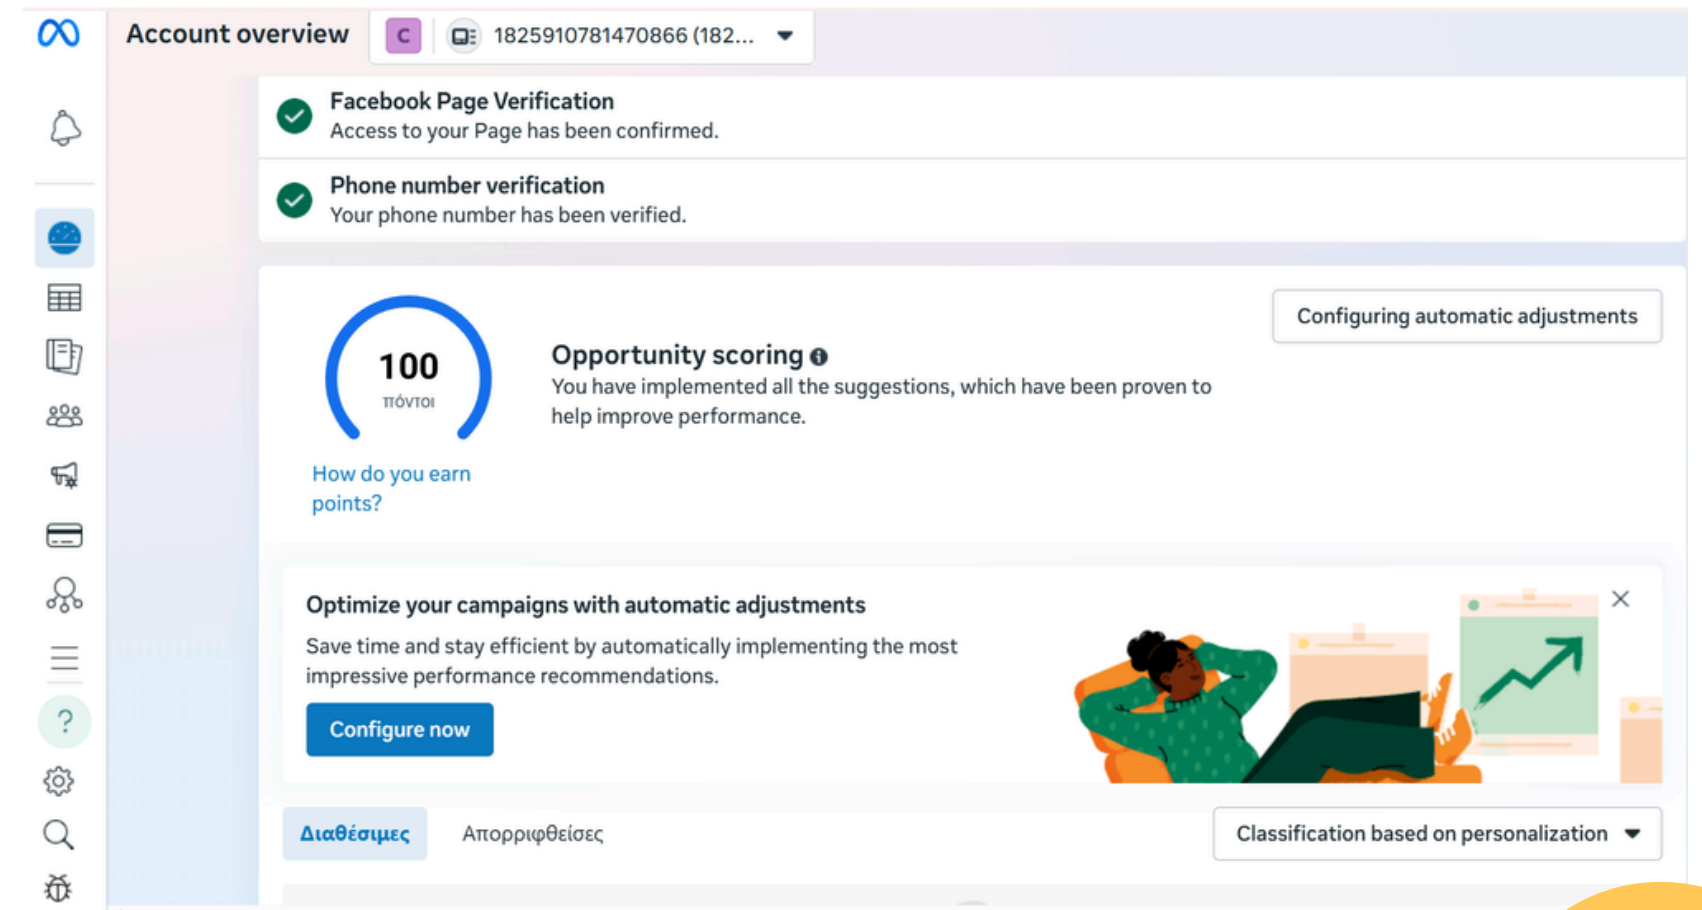

Implementation of Meta Pixel integration to enable accurate tracking and performance measurement.

Accurate data tracking is the foundation of successful campaigns.

We integrate Meta Pixel to capture essential events like purchases, sign-ups, and website interactions.

This allows us to measure performance precisely and optimize campaigns for maximum return on investment.

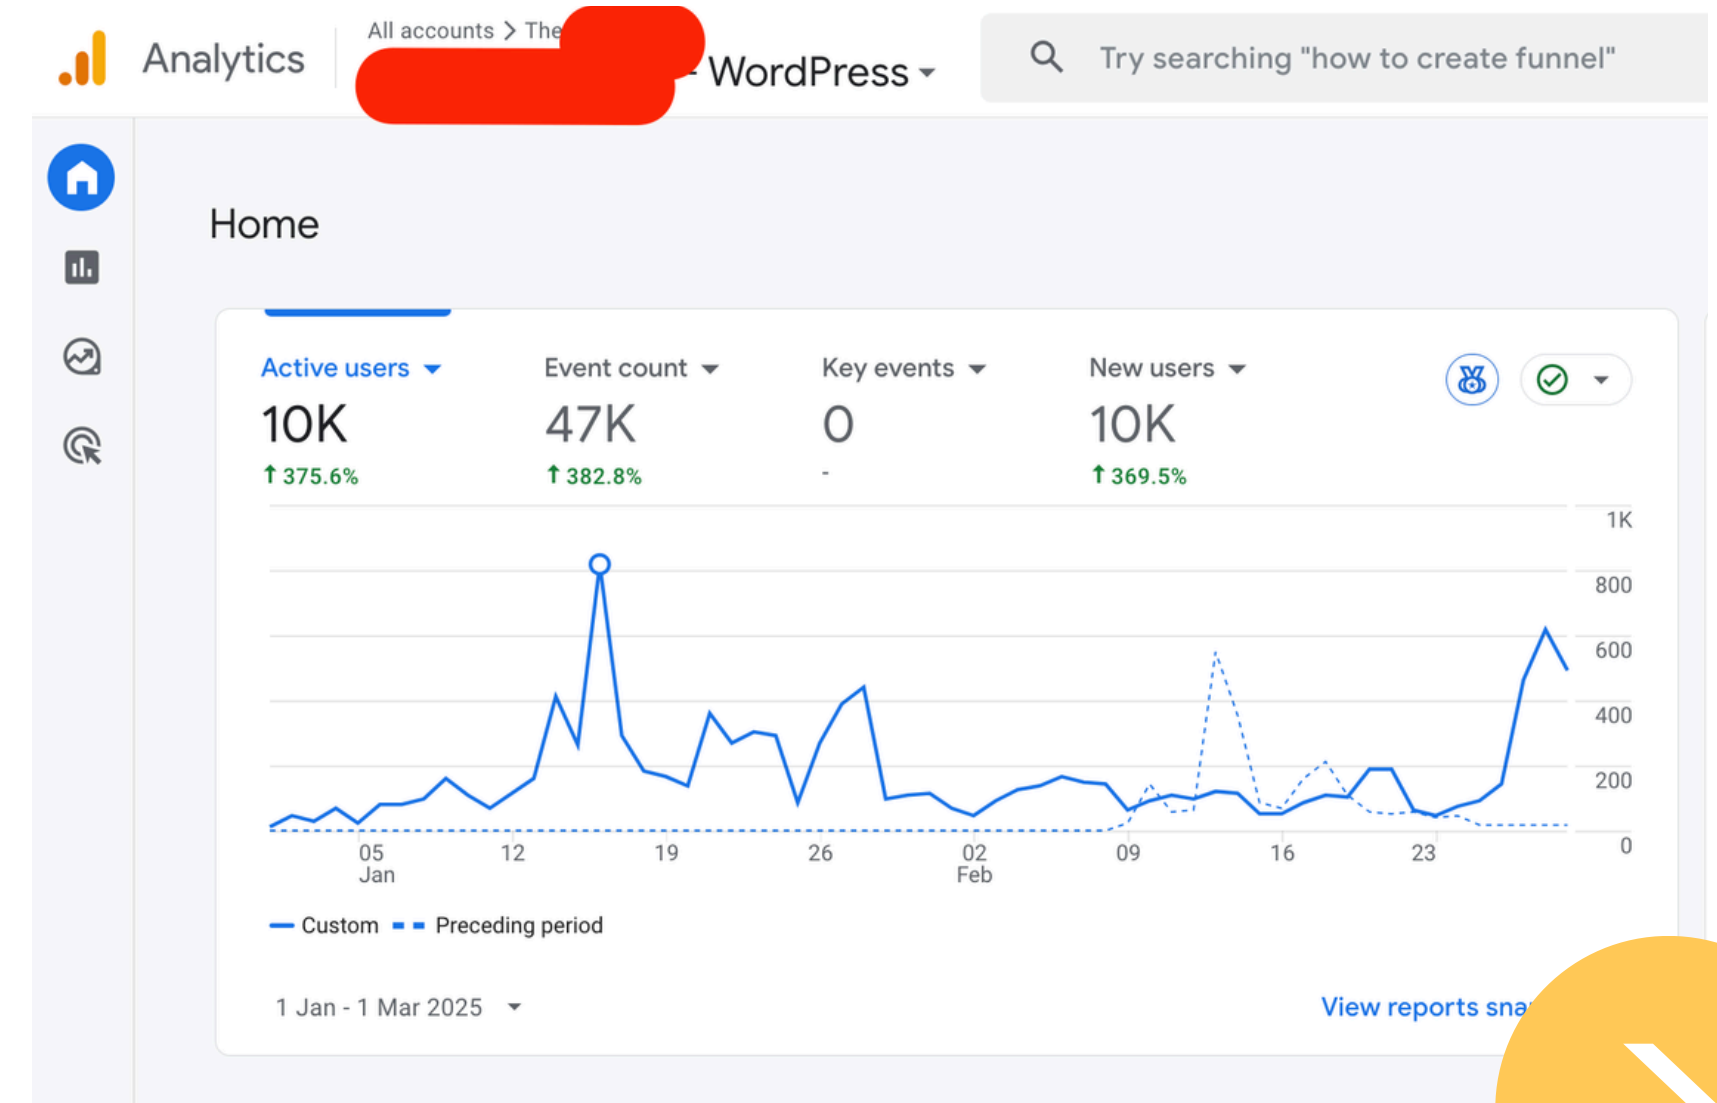

GOOGLE ANALYTICS CONNECTION

Set up of Google Analytics to monitor user behavior and campaign effectiveness.

Google Analytics provides us with a deeper view into how users interact with your website after engaging with your ads.

With this setup, we can track key actions, analyze customer journeys, and refine targeting strategies based on real user behavior.

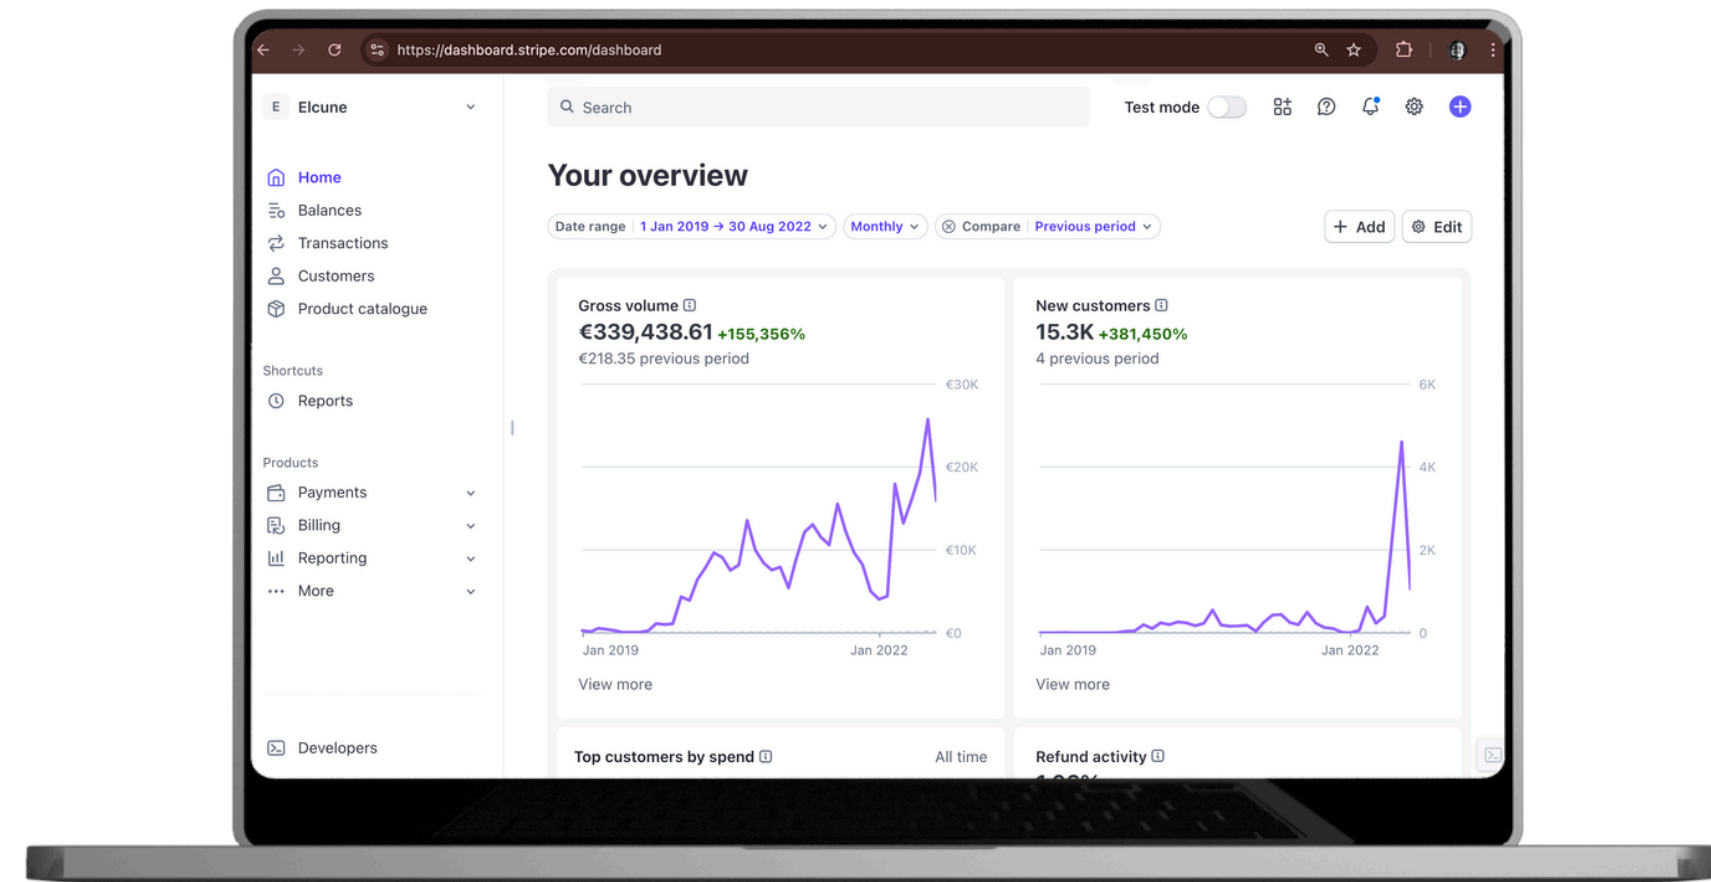

CAMPAIGN LAUNCH

Execution end-to-end campaign launches, from setup to go-live.

We handle every detail of launching your campaigns, from ad creative upload and audience targeting to tracking setup and quality assurance.

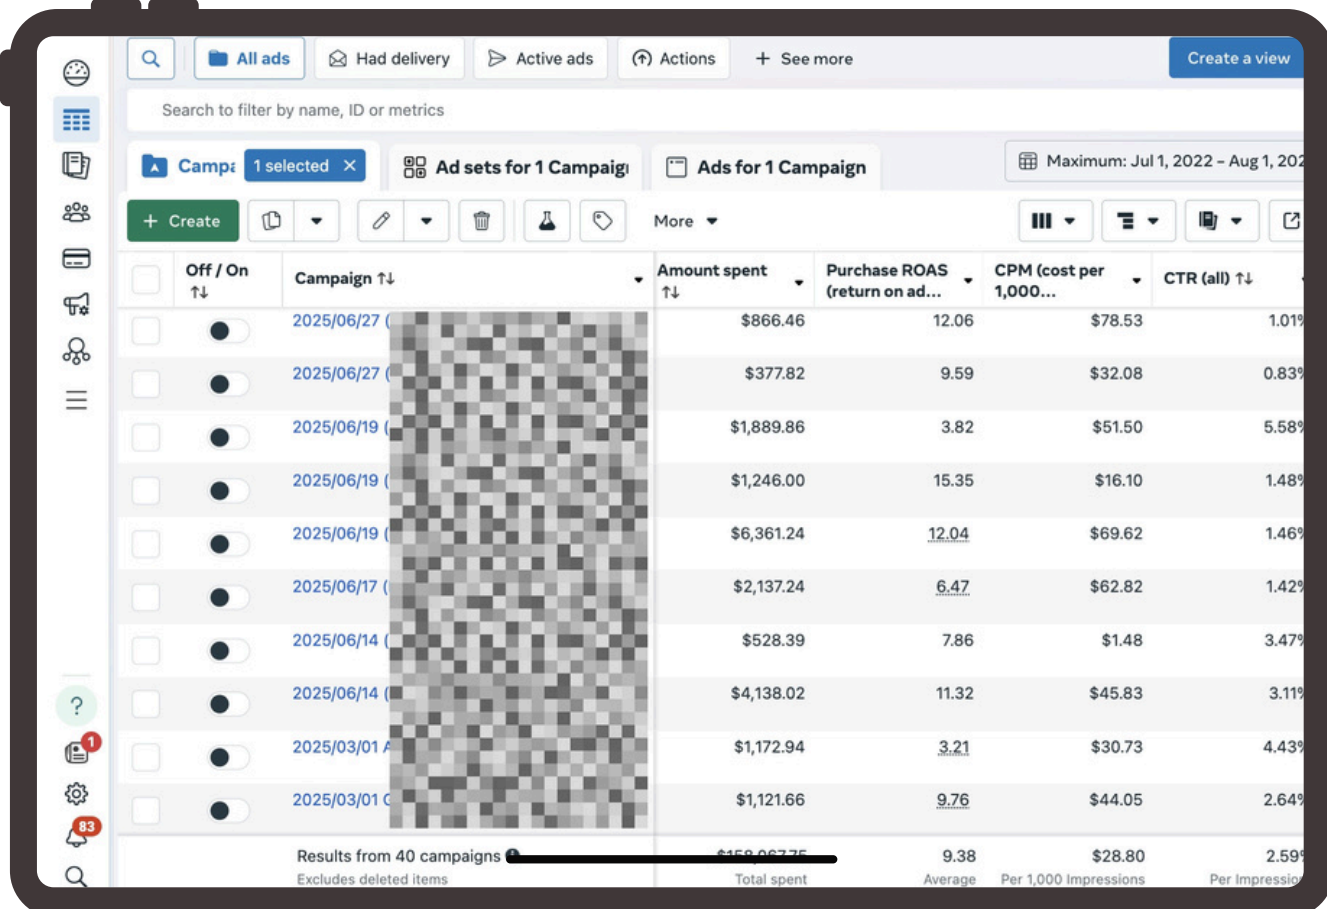

Our goal is to ensure your campaigns go live smoothly, without technical issues, and start strong from day one.

CROSS-PLATFORM CAMPAIGN MANAGEMENT

Management of active campaigns to ensure optimal performance and alignment with goals.

Once campaigns are live, we monitor them closely to ensure they perform at peak efficiency. This includes adjusting bids, testing variations, and reallocating budget to top-performing ads, always keeping your KPIs and business objectives in mind.

	Off / On ↑↓	Campaign ↑↓	Amount spent ↑↓	Purchase ROAS (return on ad...)	CPM (cost per 1,000...)	CTR (all) ↑↓
☐	☒	2025/06/27 (C	\$866.46	12.06	\$78.53	1.01%
☐	☒	2025/06/27 (C	\$377.82	9.59	\$32.08	0.83%

Results from 40 campaigns			\$158,067.76	9.38	\$28.80	2.59%
Excludes deleted items			Total spent	Average	Per 1,000 Impressions	Per Impression

CAMPAIGN SCALING

Optimization and scaling of campaigns to increase reach, conversions, and ROI.

Scaling isn't just about spending more, it's about smart, data-driven growth.

We test multiple creative angles, expand winning audiences, and gradually increase budgets to maximize ROI while maintaining profitability.

The key is to identify what works, double down on it, and continuously optimize so growth remains sustainable. Otherwise, the right balance of strategy, testing, and execution.

CONTINUOUS REPORTING & WEEKLY STRATEGY MEETINGS

Delivery of ongoing performance reports and weekly strategy sessions for continuous improvement and alignment.

We believe in full transparency.

That's why we deliver regular performance reports and meet weekly to review results, discuss strategy, and align on next steps. This ensures you're always in the loop and campaigns evolve alongside your business goals.

THANK YOU
