Overview

SEO AUDIT

Identifying strengths and weaknesses

The audit phase identifies strengths and weaknesses of a website through technical analysis, content review, and backlink evaluation. This provides a roadmap with prioritized fixes for sustainable growth.

KEYWORD RESEARCH

Unlocking search opportunities

I select high-intent keywords, analyze competitors, and include long-tail terms to capture niche traffic.

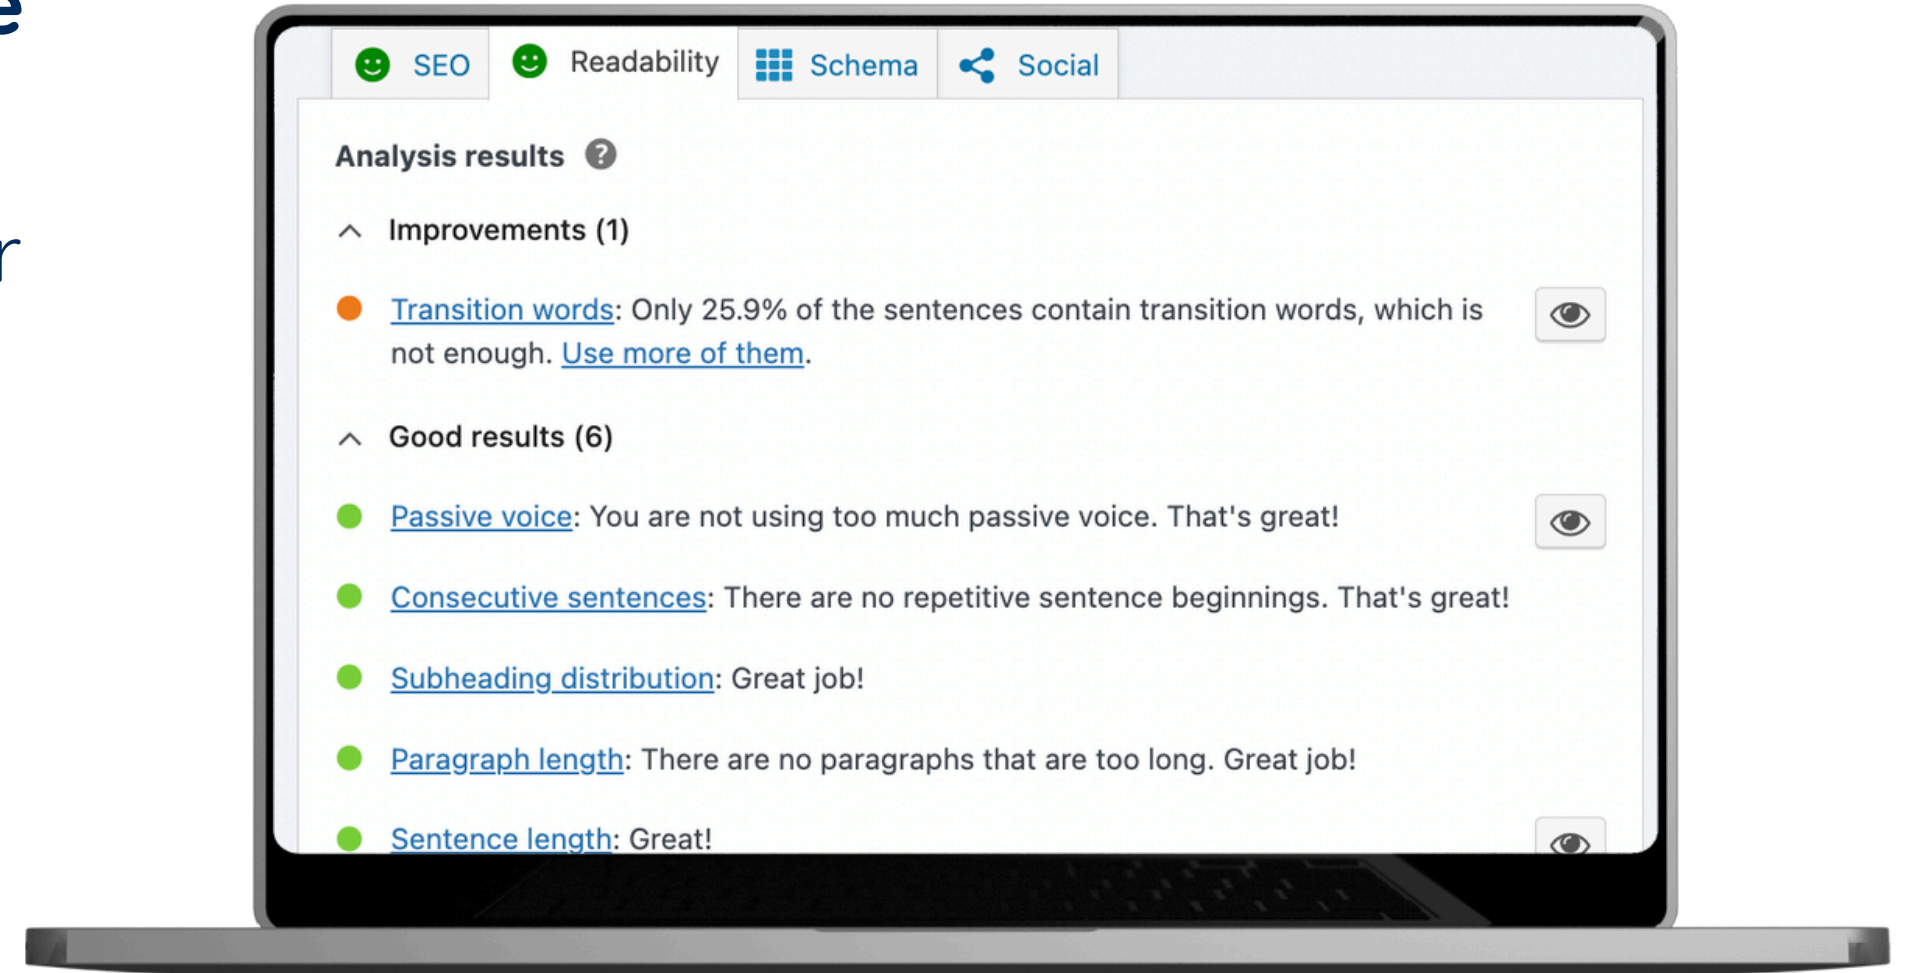

This ensures campaigns are based on real data and designed for maximum impact.

ON-PAGE SEO

Optimizing visibility and user experience

- Meta titles and descriptions crafted for CTR
- Header structures and internal linking
- Schema markup for enhanced search appearance
- Content optimization with semantic keywords

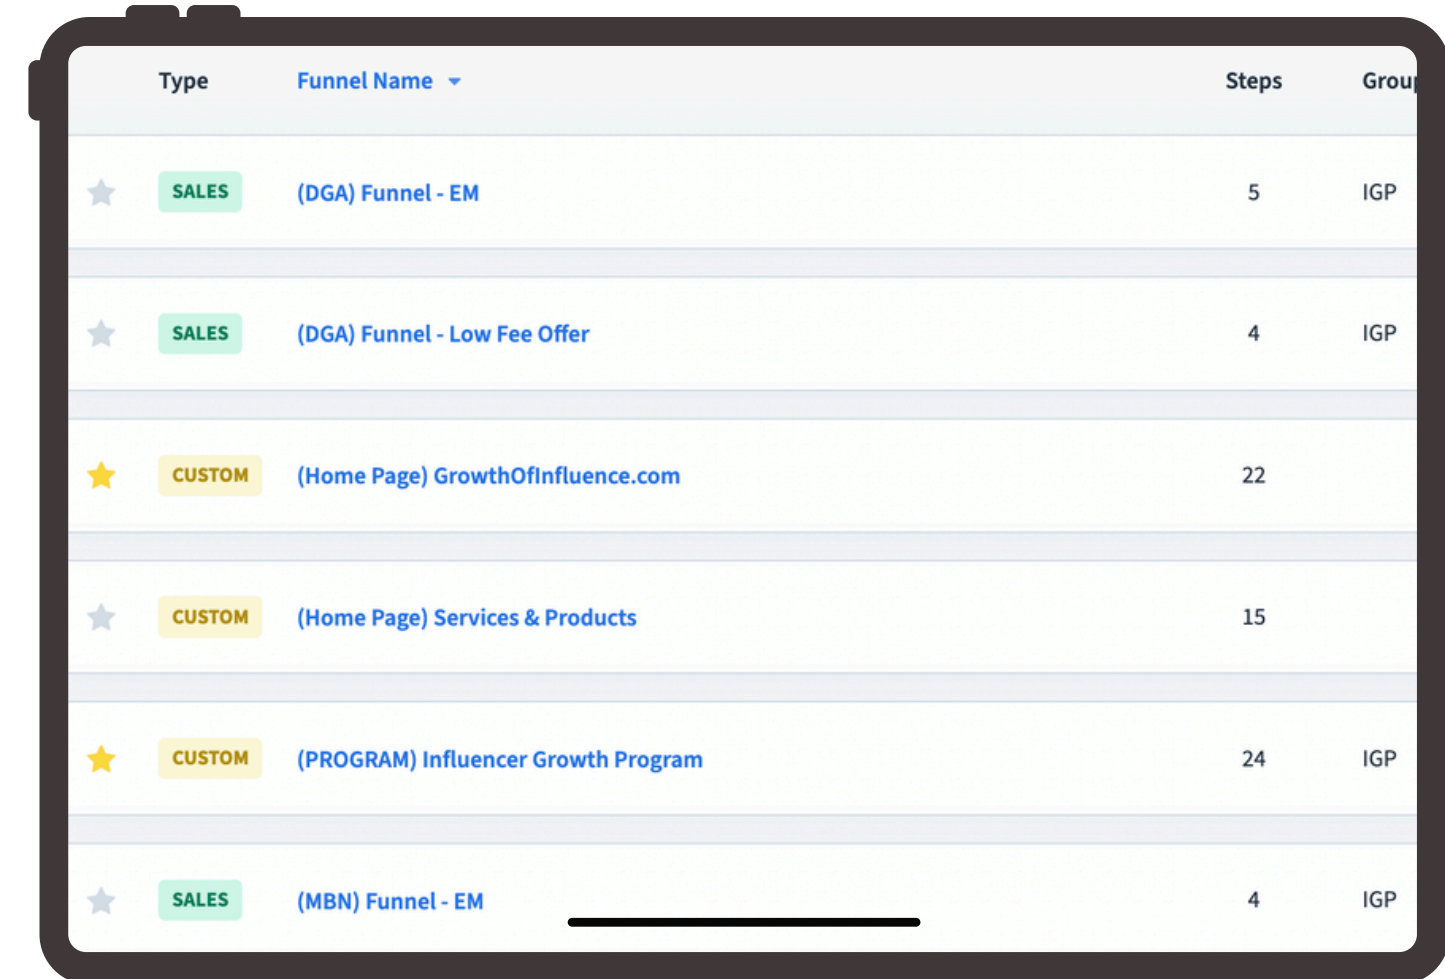

TECHNICAL SEO

Building a strong website foundation

I improve:

- site speed
- mobile usability
- crawlability and indexation

With this search engines can fully understand and rank the site.

Type	Funnel Name	Steps	Group
★ SALES	(DGA) Funnel - EM	5	IGP
★ SALES	(DGA) Funnel - Low Fee Offer	4	IGP
★ CUSTOM	(Home Page) GrowthOfInfluence.com	22	
★ CUSTOM	(Home Page) Services & Products	15	
★ CUSTOM	(PROGRAM) Influencer Growth Program	24	IGP
★ SALES	(MBN) Funnel - EM	4	IGP

CONTENT OPTIMIZATION

Enhancing relevance and engagement

I update outdated content, integrate keywords naturally, and structure content for readability, ensuring both user satisfaction and search visibility.
